Report of feedback by the students was submitted to the IQAC and the academic council. The students were satisfied with the overall academic activities offered by the institution although majority of classes were conducted in online mode. 88% of the total respondents expressed their interest to be a part of the alumni team and contribute to the academic growth of the institution.

Action Taken Report

Since the classes were online most of the time students had no access to the facilities of the college. Hence it was recommended that students not more than 20 could attend lab works and visit the library.

Students were not able to connect to online classes because of data issues. So uploading of video classes and starting of youtube channels were done by some departments.
