REPORT

World Space Week is celebrated every year during Oct 4 - 10. The choice of dates is based on two important dates in space history - the launch of Sputnik-1 on Oct 4, ¹⁹⁵⁷ and signing of Outer Space Treaty on Oct 10, 1967. The theme of the largest annual space event of the world for 2022, is Space and Sustainability. Joining these worldwide celebrations, the department arranged a field visit to the Vikram Sarabhai Space Centre, Trp. The space museum was a motivational experience to the students. The students also witnessed the launch of sounding rockets at VSSC. The students also visited the Planetarium, Trp. Science and Technology Museum at the place filled the minds of students with million questions and they were eager to know more about all exhibits. The students also watched the star show at the museum. Back at college, the PG students of the department arranged ppt presentations on various topics related to space which was appreciated by the UG students of the department. The presentation was followed by a Space Quiz in which Master Akash of IDE Physics was the winner. The programmes came to an end with the promise that attempts will be made to explore more on the truths about space in the coming years.

Report

Cathode Ray Oscilloscope (CRO) is a common instrument in PG laboratories. In order to make the students aware of the various measurements using a CRO, doing base correction before using the instrument and the various safety precautions to be followed while using the instrument, the Department organised a seminar on the topic in collaboration with Prominent Technologies. Engineers from the industry gave a detailed explanation on the use of the instrument the basics of all components used in the instrument was discussed in detail during the highly fruitful interactive session. The session is sure to have made the students confident enough to use the instrument.

REPORT

The PG department of Physics joined hands with Science Club to organise a one-of-the-kind international webinar entitled 'Life of Antarctica and Opportunities'. The venue of the programme was the Semina Hall of the institution. It was a live interactive session with Adith R, former student of our institution who is currently at the Indian base at Antarctica as part of research. It was a thrilling experience for our students. The resource person briefed about the current studies being carried out in Antarctica as part of sustainable development. He also discussed the research opportunities available for students and how one can reach out for these opportunities. Though there was range issues and the connection was interrupted many times, students waited patiently to listen to this unique programme. The session is sure to have motivated many to enter to the thrilling world of research.

Report.

A training session was organised by the ASAP as a part of 'connect career to campus' Campaign for the final year UG and PG students to apprise them about the Dwms portal, understand industry skills and current career opportunities. The training session was arranged at the college, Seminar Hall. on 30/01/2023 10:am. There were 118 UG students of various UG programmes and 29 PG students were attended. The programme on the basis of that they registered their names in the Dwms Portal. The resource person Ms. Athira Prabhakar demonstrated the steps of registration clearly how to register their names in the Dwms Portal.

Resource Person - Ms. Athira Prabhakar } ASAP
Mr. Dhanush Chandran } official

Venue - Seminar Hall.

Date & Time - 30/01/2023.

Targeted audience - UG & PG students.
